Full Service Mail House

We are a full service mail house provider. We are able to design, print, prepare, and send your mail all under one roof. We know what a pain it can be to prepare and send hundreds of pieces of mail without the proper software and taking it to the post office for delivery, so we invested in the proper equipment and software to do it for you. And in most cases for the same amount of money or less than if you would have done it yourself.

0

First Class

We can do First Class Bulk mail, which will be the quickest but also the most expensive. We recommend using this when you are running tight to a deadline and need your clients to have the mail piece as soon as possible. In order to qualify for First Class Bulk Mail you will need a minimum of 500 pcs. We are able to send your mail First Class for pieces under 500 via metered mail imprint, just not by bulk mail. This is typically still cheaper than if you would do it yourself

2

Marketing Mail

Marketing mail also referred to as Standard Bulk mail, is the most widely used service for your advertising, services or marketing mailing. It is an inexpensive way to reach your potential clientele and let them know what you are offering. Just be aware of when to use this type of mailing. Not recommended when there is a deadline to reach that is less than a month out as this type of mailing can take up to 2-3 weeks to get there depending on the schedule of the United States Postal Service.

2

EDDM

EDDM or Every Door Direct Mail is the most inexpensive way to mail your literature. This is a great way to broadcast your service to an entire zip code or city. You will need to contact us to see how many residents live in the zip code you intend to do your mailing. Most zip codes are divided up into multiple routes and you will need to distribute to an entire route or zip code depending upon the size. You will not need a mailing list as this sends all your pieces to that entire city or route.

Our Printing Capabilities are
LIMITLESS

APPAREL PRINTING

We have expanded our line of products and are now offering DTG printing onto a variety of garments, from T-Shirts to Sweaters and more.

UV FLATBED PRINTING

UV Flatbed printing prints onto virtually any substrate up to 2" in thickness and up to a 4' x 8' sheet. We have printed on wood, glass, plastics and metals. UV inks are outdoor grade and waterproof.

CNC CUTTING/ROUTING

Our Colex CNC will cut or rout out any printed materials with precision. From signage to decals our cutting capabilities are limitless!

EMBROIDERY

Embroidery can be done on a variety of subjects. From apparel to blankets and more.....make your logo stand out with over 200+ thread colors available.

Designing & Typesets

We charge \$75 per hour for designing and typeset unless otherwise specified. We charge \$15 for scanning your products per item and creating an electronic file. There will be additional charges for editing the files for printing.

0

We try to send our products out within 2 weeks of placing the order for all in house printed products. All other products depend on the manufacture.

All prices are without shipping. Actual shipping costs will be charged and we try to have most products drop ship directly to your facility that we possibly can.

Logo & Artwork

2

We can design your logo for your business if you don't have one, or if you have a logo designed by someone else and would like to use that logo on your products, they need to be sent to our email at:

orders@goldstarprinting.us or on a USB Drive or CD and mailed to us. Adjustments made to your pre-designed artwork will incur additional charges.

2

We ask to have the working files if at all possible in one of the following formats:

- Adobe Indesign
- Adobe Illustrator
- Adobe Photoshop
- **We no longer accept any Word documents.**

But if you can't get a working file the following formats also work but are limited to adjustments.

- Acrobat PDF
- EPS
- JPEG
- PNG
- TIFF

All pricing may change without notice.
